

Case IH AFS Pro600/Pro700

- FAQ: <http://caseihafs.com/pro700.php>
- Current Firmware: Pro 600 & 700 Version: 26
- Additional Information:
 - To avoid data loss, backup the entire card to a folder on your computer before reading into any mapping software. You should also check to make sure data is recording correctly early in the harvest season using your mapping software.
- For more information log on to <http://caseihafs.com/> or contact Case IH AFS Customer Support 1-888-CASE-AFS (1-888-227-3237)
